

Tri Pham

Front-end Developer

I am a Computer Science student at Hanoi University of Science and Technology. I am passionate about web development. So, I enjoy nothing more than learning about building website. I consider an environment to develop myself. I also want to contribute to the company with team members.

EDUCATION

Computer science

Hanoi University of Science and Technology

10/2018 - 01/2023

PERSONAL PROJECTS

Car world

- Description: This is a project for our group's software engineering at university. My role in the project is to design the interface for the website, call and display API data, and allow the user to interact. The website's primary functions are registration and logging in, posting to buy and sell products, and filtering products by various fields.
- Technologies: Javascript, JQuery, MDBBootstrap.

Chat app

- Description: The app, similar to a chat room, allows the user to send messages to other users. The app's main features are signing in with a Google Account, chatting with strangers, and logging out. The conversation data is saved in Firebase Firestore.
- Technologies: ReactJS, TailwindCSS, Firebase.

Weather app

- Description: By entering the name of any city in the world, you can know clearly about its weather. It displays the city's temperature, status, wind, and humidity.
- Technologies: ReactJS, SCSS, Weather API.

Travel Blog

- Description: The app displays the posts saved in the database and allows us to interact with them by clicking the like button. You can also create new posts with content and images.
- Technologies: ReactJS, React-Redux, Material UI, Express, MongoDB.

WORK EXPERIENCE

FSOFT AIC

Data collector

08/2022 - 10/2022

Achievements/Tasks

- Collecting audio and images data for motorbike and car training model.

AHT TECH JSC

Front-end Internship

11/2022 - 1/2023

Achievements/Tasks

- Covert PSD designs to web interface with perfect pixel.
- Doing ReactJS task includes building website layout components.
